Design Methodologies: Responsive Web Design, Accessibility (WCAG), Agile

WORK EXPERIENCE

UXD Developer TCS, Bangalore	Feb 2026 - Present
- Conducted a UX audit across the mobile app, website, and admin panel to understand end-to-end product flows and identify usability gaps after joining the project mid-development. - Owned the end-to-end design of the platform's flagship team formation feature, enabling players to create reusable teams and discover compatible teammates across multiple games. - Redesigned the tournament registration journey by integrating team formation, reducing the user flow from 10 steps to 3-4. - Delivered 100+ production-ready screens across mobile and web for core gaming and compliance features. - Created reusable design components that improved consistency and accelerated development. - Performed end-to-end product validation before MVP launch, logging 130+ functional/UI issues in one week.	
Senior UX/UI Designer Miles Education, Bangalore	Nov 2023 - Feb 2026
- Led the end to end design process for 5+ web and mobile website & application , increasing user engagement by 25% through improved UI/UX. - Designed over 20 wireframes and interactive prototypes, leading to a 30% reduction in development time due to clearer communication and streamlined design specifications - Collaborated with cross functional teams, aligning design solutions with business goals, which contributed to a 15% increase in customer satisfaction and 20% higher conversion rates for key features. - Contributed to the development of a unified design system, improving UI consistency and reducing design discrepancies by 40% across platforms.	
UX/UI Designer Mantra Labs, Bangalore	Oct 2022 - Nov 2023
- Increased data visualisation efficiency by 30%, providing users with clearer insights and quicker decision-making. - Reduced user onboarding time by 25%, making the product more accessible and easy to use for new users. - Improved user engagement by 40% through enhanced usability and intuitive navigation.	
Jr. UX/UI Designer Infinity Pillars, Delhi(Hybrid)	Apr 2022 - Sept 2022
- Conducted 5+ user research sessions and created detailed personas and user journeys, leading to the design of solutions that improved product functionality by 30%. - Developed 10+ wireframes, prototypes, and high fidelity designs, contributing to a 20% increase in app retention due to more intuitive interfaces.	
UX/UI Designer Blisky, Self	Sept 2021 - Mar 2022
- Conceptualized and developed the product from scratch, starting with refining the business idea, target audience identification, and defining key features. - Enhanced stock management efficiency by 40%, enabling real-time updates on inventory, reducing the risk of stockouts or overstocking. - Optimized transport and logistics coordination, resulting in a 25% reduction in delivery delays by automating transport scheduling and providing better visibility into order status. - Streamlined billing processes, cutting down the time required for invoicing by 35%, which allowed finance teams to quickly process payments and reduce errors.	
Interior Designer Freelance	Apr 2020 - Aug 2021
Interior Designer Studio Red, Kolkata	Jan 2020 - Mar 2020
Interior Designer Artinsive Interiors, Kolkata	Jan 2019 - Dec 2019
